### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the claim limitation illuminating a flash unit during closing of the variable aperture at a predetermined restricted second aperture size corresponding to the close up operational mode or for an exposure control system that uses a fill flash function to capture images at less than the nominal focus distance. The prior art discloses enabling the flash unit when the camera is set in close up mode of operation, however the enabled flash mode is not a fill flash function. A fill flash function is one that obtains a satisfactory exposure for both a portion of the photograph that is properly exposed by ambient light and a portion of the exposure that requires further flash illumination to obtain proper exposure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
